Gonzales

Z

"Z" is **Gonzales'** fourth album, a mutated "Best Of", highlighting songs from albums 1-3.

Except this time, they've been completely re-recorded from scratch in new styles, with new guests, and with all new vocals and music. This is the album Gonzo would probably make if he was retiring at age 60.

So in keeping with this theme, Gonzo is proud to announce the "Z" **Pretirement Tour**, featuring the Canadian Content Crew (**Peaches, Taylor Savvy, Feist, Mocky**) and the Austrian crooner **Louie Austen** for end of 4' 2003. To accompany the release of "Z", they will be travelling to select cities in the EU such as Paris, Berlin and London.

Gonzo remembers, "After the runaway success of **Presidential Suite**, I sat down at my white grand piano to write new music. But when my fingers fell on the keys, all my old melodies came out again. I simply couldn't physically write anything new! So in the absence of the new, I decided to improve on the old."

The usual collaborators are on hand, in new combinations: **Taylor Savvy** showcasing an unknown genius for funk guitar on "This One Jam"; **Feist** whisper-singing a lounge-soul version of **Peaches'** classic hit "Lover Tits"; **Peaches** herself on "The Joy of Thinking".

There are new co-conspirators as well: New York's **Princess Superstar** drops a blue verse on "Soft Shoe Snoozin"; "Etienne" singer **Guesch Patti** brings chanteuse flavor to a French translation of "Shameless Eyes", now renamed "Dans Tes Yeux".

Of course the real stars of any Gonzo album are the sentimental melodies (most notably on "Gonzales Uber Alles") which appear like ghosts throughout "Z". This album is Gonzo saying Goodbye, but only for the 1st time, and certainly not for the last time.
