Maximilian Hecker

Live Radio Sessions

The live follow-up to Maximilian Hecker's hit albums LADY SLEEP, INFINITE LOVE SONGS and ROSE, LIVE RADIO SESSIONS is his fourth album for Kitty Yo, which showcases his seemingly never-ending ability to deliver evocative and fragile ballads in a live as well as a studio context.

With the soaring cadence of his angelic, choirboy voice that is firmly lodged in the upper register, he demonstrates to an enraptured audience that he is the master of his own sound, often described as 'neo-Baroque pop'. The wonderful elegant and melancholic feel to songs such as LADY SLEEP and BIRCH are almost intensified when performed in a live arena, while opulent and elegant orchestral offerings like, SNOW cement his reputation as a classic and traditional song-writer. His performance of the dreamy and lulling ANAESTHESIA similarly demonstrates that he is not only in a league of his own when it comes to musicality but that he is also an artist who is determined to raise the bar every time he performs as he effortlessly combines raw, exposed emotions with his leftfield sensibilities.

Taking cues from a range of influences that encompass Sigur Ros, Elliot Smith and even The Housemartins, this album evokes a mixture of feelings in the listener as a result of the beautiful string arrangements, Thom Yorke style vocals and a delicate, classical piano melodies.

Melancholic but never mawkish this is a hypnotic and intimate record that will impress his fans as well as melting the souls of many new recruits.
