STADE

Tactile Sessions

STADE is a huge artistic concept based on the duo formed by Pierre Audétat (keyboard, sampler) and Christophe Calpini (drums, sampler). Pierre Audétat is not only a talented pianist, composer and remixer but also one of the European masters of Alive Sampler. Christophe Calpini meanwhile is a pioneer of Swiss and European hip-hop with the group Silent Majority. STADE is one of the very few groups able to perform live-electronics combined with acoustic playing on stage. Their latest offering 'Tactile Sessions' draws on their previous album 'Tactile' and once again showcases an impressive selection of guest artists who also feature on STADE's first opus. Infinite Livez (Shdowless Crew) and Wayne Paul (Lotek Hifi) are on duty representing Big Dada once again while the European master of trumpet, Erik Truffaz is on hand to explore more unusual musical territories and sounds. Nya who discovered dub and hip-hop in the United States during the eighties also adds his musical ability to the overall soundscape. With its many international guests, the STADE project enjoys an important network branching out into numerous influential circles. 'Tactile Sessions' combines the richness of avant-garde jazz, the efficiency of electronics and the energy of hip-hop to form straight and powerful grooves. Playful and innovative in its style, STADE's album successfully pushes the boundaries of inventiveness and experimentation while also maintaining a sense of fun and deep enjoyment. Don't sleep on this one.
